

Feedback Questionnaire for the Citizen Science Guide and Report

Hello and welcome to the feedback questionnaire for the Guide to Citizen Science and underpinning report: 'Understanding Citizen Science and Environmental Monitoring'.

The purpose for writing the Guide and Report was to provide evidence-based advice on how to set-up and run a successful citizen science project. By looking at past projects, they identify the best ways to encourage more researchers and volunteers to get involved in citizen science and the potential for using available and emerging technologies for data recording.

It has been exactly one year since these documents were published, which gives us the perfect opportunity to take stock and ask for feedback. By completing this questionnaire, it will enable us to monitor the use of the Guide and Report -find out who, what, where and why- and discern the impact they have had on organisations and projects. Importantly, this questionnaire will also allow us to understand how to develop future work in the area of citizen science.

Please return your questionnaire by pressing 'submit' at the top right, or if this is not possible please return to office@ukeof.org.uk.

1. Please specify the sector that you work in (*Please select*)

2. Please specify the environmental domain(s) that your work covers

(Please select all that apply)

Atmosphere	Freshwater	Marine
Biosphere	Groundwater	Social and Economic
Built Environment	Ionosphere	Other
Cryosphere	Lithosphere	

3. How useful have you found the Guide to Citizen Science?

Extremely Moderately Somewhat Not at all

4. Which parts of the Guide did you find most useful?

5. How useful have you found the Report?

Extremely Moderately Somewhat Not at all

6. Which parts of the Report did you find most useful?

7. How has the Guide and Report changed your view on citizen science?

Extremely Moderately Somewhat Not at all

8. How has the Guide and Report changed how you practice citizen science?

Extremely Moderately Somewhat Not at all

9. What (if anything) have you done differently as a result of reading the Guide and/or Report? Please give examples.

10. Has the Guide and/or Report inspired your organisation to undertake (more) citizen science?

Yes No Not Applicable

11. Would you be happy for us to contact you for further feedback on the Guide and Report?

Yes No

If yes, please provide us with your name, organisation and contact details below:

Name

Organisation

Email address

Phone number

Thank you for your time.
