

**UKEOF Freshwater Monitoring Review and Future Strategies Workshop
Outcomes Webinar**

Date: 17th January 2018 (14:00 to 15:30)

Purpose: To share best practice and explore opportunities for working together as monitoring programmes are developed for our freshwater systems.

Outcomes: A shared understanding of the approach each agency is taking, opportunities for closer working and a set of specific topics, questions and challenges to be resolved together (with support of UKEOF and an invite to contribute where appropriate).

The webinar and UKEOF – Anita Weatherby/Gareth Old (3mins)

Introduction (aims of workshop) – Nathan Critchlow-Watton (5mins)

Country based presentations:

1. Environment Agency – Jennifer Taylor (5-7mins)
 - a. Arising questions (3mins)
